

**LEARN  
HOW  
TO  
PROGRAM  
A  
QUANTUM  
COMPUTER**

Learn about quantum computers and how to program them using Rigetti's pyQuil quantum programming language, explained by a Rigetti Quantum Solutions Engineer. A working knowledge of complex numbers, matrix arithmetic, and programming in Python is all that is required.

**Tuesday, April 9th at 3:00PM, Haus Room (Building 36-428).**
