

PRIZED POSTDOCTORAL POSITIONS

The **Institut quantique** of the **Université de Sherbrooke**
invites applications for **postdoctoral positions** in

Quantum Materials | Quantum Information | Quantum Engineering

From Quantum Sciences to Quantum Technologies

The **Institut quantique** is a leading research center combining expertise in quantum materials, quantum information and quantum engineering. Fundamental discoveries made by our team have defined new research directions and generated novel applications of quantum science. **IQ** offers a stimulating research environment with a well-established culture of innovation, working with a global network of scientists and industries. Competitive salaries and comprehensive support, including research and travel funds.

- **Positions for 2 years - outstanding candidates considered for up to 4 years.**
- **Research excellence grant, international visitors program, summer school, workshops.**

A PhD, significant evidence of excellence in research or evidence of strong potential for technological transfer of research projects are required. Applicants must have completed their PhD within the past 4 years. Please send a CV with a cover letter containing a short description of the research program. Arrange for two letters of reference to be sent directly.

Only material received on November 30th 2016 will be considered. The material must be sent to : postdoc-iq@USherbrooke.ca
